WORK EXPERIENCE

Aug 2019 - Present	**Thudo Multimedia JSC** NodeJS Developer - Building and developing internal system for company (backend nodejs with express) - Researching and developing projects from Viettel, Mobi and Vina (backend nodejs with express) - Mentor for for apprentices and probationers
Jan 2019 - Aug 2019	**Masso JSC** NodeJS Developer - Building and developing sales optimization tools on facebook (backend nodejs with express) - Mentor for trainees
Aug 2018 - Jan 2019	**Grooo JSC**

Internship
- PHP internship
- On Job Traning VueJS at the project using Laravel Framework

Jun 2018 - Jul 2018	**Samsung Vietnam Mobile R&D Center** Internship - C/C++ Programming - Programming game Snake on OOP C++ platform
Jun 2017 - Jun 2018	**JIT JSC** Internship - Android Programming - Arduino Programing

ACTIVITIES

Jan 2018 - Feb 2018	**University's Scientific Research Conference 2018** Member - Researching and building filter ECG signal and FIR direct transposed with Matlab
Sep 2017 - Sep 2017	**Microchip Embedded Solution Seminars Hanoi 2017** Guest - Microchip IoT Solution with introduce hardware and software solutions
Jan 2017 - Feb 2017	**University's Scientific Research Conference 2017** Member - Researching and building desktop application that displays capacitive sensor data

SKILLS

Language	- English - Vietnamese
Computer	- Word - Excel - Powerpoint
Specialized skills	- Experience in API Solutions using NodeJS, with third-party libraries and APIs: ExpressJS - Experience working with a well-known database: MongoDB, MySQL - Experience working with popular virtual private servers: AWS, Azure, Google Cloud Platform, Digital Ocean, Vultr,... - Experience working with web server: Nginx - HTML, CSS3, Jquery, Javascript ES6 - Basic with Docker, VueJS and Redis

- Source code management: Github, Gitlab, Bitbucket, ...
- Read and understand documents in English
- Approach to new projects at a fast pace

Soft skill	- Self-taught - Work in group - Communication - Able to communicate in English - Working under pressure

PROJECTS

MHealth Application
(Mar 2020 - Mar 2020)

Customer	Private (Vietnam)
Description	- This is an application that helps people look up their health information and relatives conveniently, anytime, anywhere from right on your phone.
Team size	6
My position	Backend Developer
My responsibilities	- Analysis and design database for module vaccination - Construction of project structure - Development - Review code - Optimize code - Bug Fixing
Technologies used	- MySQL with Sequelize, Nodejs with Express, etc.

Crawler Lottery Results Tool
(Feb 2020 - Feb 2020)

Customer	Internal System
Description	- This is a tool to scratch lottery results from a certain website to a company website
Team size	1
My position	Developer
My responsibilities	- Analysis and design - Development - Review code - Optimize code - Bug Fixing
Technologies used	- Google App Scripts, Javascript ES6, Cheerio

AVB Quantity Statistic Tool
(Feb 2020 - Feb 2020)

Customer	Internal System
Description	- This is an quantity statistics tool from a company service
Team size	1
My position	Developer
	- Analysis and design - Development

My responsibilities	- Review code - Optimize code - Bug Fixing
Technologies used	- MySQL with Sequelize, Nodejs with Express, ejs, JWT authenticate, etc.

Beauty Social Network
(Oct 2019 - Present)

Customer	Company's product
Description	- This is a project to research and develop a beauty social network in Vietnam market
Team size	6
My position	Developer
My responsibilities	- Analysis and design database - Research trending, news feed algorithms - Development - Review code - Optimize code - Bug Fixing
Technologies used	- Nodejs with Express, JWT authenticate, MongoDB with mongoose, etc

IoT Solution On Website
(Oct 2019 - Jan 2020)

Customer	Private (Vietnam)
Description	- This is a website that displays real-time data obtained from sensors and sent from hardware devices using the HTTP protocol
Team size	1
My position	Developer
My responsibilities	- Analysis and design base code, database - Research and building hardware system and software system - Development - Process Data - Review code - Optimize code - Bug Fixing
Technologies used	- NodeJS, VueJS, Arduino, MongoDB, Google Map API etc..

Automatic Posting Tool
(Mar 2019 - Jul 2019)

Customer	Company's product
Description	- This is a website that automatic post to profile page, group, fanpage on facebook support online sales.
Team size	4
My position	Backend Developer
My responsibilities	- Build base core code - Development - Review code - Optimize code - Bug Fixing
Technologies used	- NodeJS, VueJS, MongoDB, Cronjob, etc

Chatbot Tool
(Feb 2019 - Jun 2019)

Customer	Company's product
Description	- This is a website that optimizes the sale of customers on facebook using their own page profile
Team size	4
My position	Backend Developer
My responsibilities	- Development - Review code - Optimize code - Bug Fixing
Technologies used	- NodeJS, VueJS, MongoDB, Fabook Chat API, Socket.io etc

HONORS & AWARDS

2018	Won consolation prize University's Scientific Research Conference 2018
2017	Won third prize University's Scientific Research Conference 2017

CERTIFICATIONS

2019   Certificate of completion of B1 English training program at university level
2018   Certificate of Front-End internship course completion at Samsung Vietnam Mobile R&D Center

INTERESTS AND PERSONALITIES

- I am interesting in computer, hardware, sports.
- Watching science show.
- Studying on youtube, R&D.
